

FLATBED

THE EASY CHOICE FOR TOUGH LOADS.

The Freightliner Cascadia® and Cascadia Evolution are built to handle the most cumbersome jobs. From iron rods and steel pipes to lumber and heavy equipment. These trucks have up to a 50-degree wheel cut and ample swing clearance for superior maneuverability, especially when backing up in crowded distribution centers and tight dock situations. The ground-to-cab height leaves plenty of overhead clearance. And there's plenty of headroom for you, too — most drivers can stand comfortably in the cab of our Mid-Roof XT model. When you're on the road, Freightliner's advanced aerodynamics and solid, lightweight construction will pay off in maximized payload and fuel efficiency. There is also plenty of storage on the frame rails for chains, tarps and tie downs for containing, securing and immobilizing your most challenging loads. That's what we call running smart.

Run Smart™

STANDARD FEATURES

- › Large, comfortable seats
- › Powerful HVAC system with six dash-mounted vents, eight blower speeds and 20-percent greater airflow
- › High-tech thermal and noise insulation
- › Overhead storage console
- › Improved cab insulation
- › Adjustable tilt-telescoping steering column
- › Wraparound dash
- › Low-mounted dash and sloped hood
- › Steering-wheel-mounted controls
- › Large, dual rear window glass in a day cab application
- › Robust pedestal mirror design with power mirror adjustment
- › Up to a 50-degree wheel cut
- › Optimized aerodynamics
- › EPA 2013- and GHG14-compliant SCR technology
- › Long-lasting LED headlights improve visibility
- › Rugged three-piece bumper
- › Detachable three-piece rain tray for quick rear engine access
- › Gas strut-assisted hood
- › Roped-in windshield
- › Power Distribution Center fuses and circuit breakers grouped in a single location
- › Detroit™ Connect Virtual Technician™ on board diagnostic system

CASCADIA EVOLUTION ONLY

- › Newly designed Detroit™ DD15® engine with proprietary asymmetric turbocharger
- › Advanced aerodynamic enhancements:
 - Bumper air dam*
 - Side extender filler piece*
 - Hood-to-bumper fill*
 - Integrated antennas*
 - Bumper closure*
 - Chassis side fairing enhancements*
 - Cooling enhancements*
 - Windshield seal improvements*
 - 20-inch side extenders*
 - Elliptical-shaped mirrors*
 - Rear wheel covers*

OPTIONAL FEATURES

- › Detroit™ Connect Visibility fleet software monitors trucks and improves performance and efficiency
- › Detroit™ Connect On-Board Tablet featuring paperless HOS tracking, two-way messaging, advanced navigation and pre/post-trip inspections
- › Air disc brakes for steer and drive axles
- › Wide-base single wheel and tire options
- › Steering-column-mounted shift lever for automated manual transmissions
- › Several dash gauge packages with optional Driver Message Center
- › Electronic Stability Control
- › Roll Stability Control
- › Qualcomm pre-wire packages
- › PeopleNet pre-wire package
- › Shatterproof rear window glass in a day cab application
- › LifeGuard RollTek® driver and passenger rollover restraint and seat-mounted air bag system
- › Driver's Supplemental Restraint System (SRS) steering wheel airbag
- › Meritor WABCO OnGuard™ collision mitigation system
- › Bendix™ VORAD® side object detection system
- › Lane guidance system
- › VS-400 collision warning and adaptive cruise control system
- › Hendrickson AERO CLAD® stainless steel clad aluminum bumper
- › ParkSmart® battery powered auxiliary HVAC system
- › Factory-installed TriPac™ Auxiliary Power Unit powered by Thermo King
- › Heated and ventilated front seats
- › Meritor WABCO Electronically Controlled Air Suspension (ECAS)
- › Bluetooth®-enabled radio
- › Detroit™ DT12™ 12-speed Automated Transmission
