

CORONADO®

FREIGHTLINER®

Run Smart™

DESIGNED TO MAKE A STATEMENT. BUILT TO BE EFFICIENT.

The Freightliner Coronado® combines classic styling with modern technology. It makes a powerful first impression with its strong lines and sleek chrome. A choice of powertrain configurations provides the optimal combination of power and fuel efficiency. And the roomy, luxurious interior offers all the amenities of home.

The Coronado is built to be powerful and versatile — from the engines and suspensions to a full range of comfort features. Maintenance is easy, and our expansive North American service network will help you maximize uptime, no matter where your route takes you.

TOUGH ON THE OUTSIDE. COMFORTABLE ON THE INSIDE.

The Coronado's exterior is built for the long haul. So inside, comfort is key. That's why you'll find details such as a wide and roomy cab; solid, tightly sealed doors; and a full range of sleeper configurations. Strategically placed cabinets and under-bunk storage offer plenty of room for belongings. There's a rear HVAC control, a convenient pull-out desk and optional Driver's Lounge. Even the dashboard is driver-friendly with controls and switches placed within easy reach and backed with LED lights for glare-free nighttime viewing. The dash structure is designed with fewer sections, making it one of the quietest and most durable dashboards we've ever made. A new, larger Driver Message Center graphically displays important information, with diagnostics and data links as standard. Add the optional Oregon Burl dash panels and accents, and comfort never looked so good.

Top: Upgraded Signature Tumbleweed Tan hard trim with upgraded Oregon Burl instrument panels.

Bottom: Coronado 70" Raised Roof with optional ultra-leather seat upholstery and upgraded Signature Tumbleweed Tan hard trim.

The Coronado interior is offered in vinyl or cloth, and is available in three attractive colors: Opal Gray, Oasis Tan and Graphite Black.

Two hard trim levels and colors are offered: The Classic hard trim comes standard in Slate Gray (day cab only) and standard in Tumbleweed Tan (sleeper cabs only), while the Signature trim is available in Tumbleweed Tan and Slate Gray with Oregon Burl dash panels for both day cab and sleeper cabs.
