Serious trucks.™

UNTIL YOU CAN MINE CASH, HERE'S THE NEXT BEST THING.

There's a simple reason Western Star® is the truck for your company – it makes you money. Case in point, the 6900XD. The Western Star 6900 40-ton dump delivers a low cost per ton that will improve any bottom line. That's because Western Star was born a work truck. And we know what it takes to make a work truck perform.

But choosing Western Star means more than just dump trucks. We have a complete family of trucks that can keep your mine or quarry running. Trucks with powerful engines, and a heritage of durability and reliability backed by unmatched factory and dealer support. Buy a few of these and downtime is almost a distant memory.

Tough engines. Easy choices.

When it comes to choosing an engine, compromise should never enter the conversation. We offer a variety of engines, with the horsepower and torque ratings to let you spec the engine that has the brute strength you need to get the job done – including a Tier III engine option designed solely for off-highway use. There's no shortage of getting what you want around here.

| ENGINE | HORSEPOWER | TORQUE |
|------------------------------|------------|------------------|
| DETROIT™ DD13* | 350-470 | 1250-1650lb.-ft. |
| DETROIT™ DD15* TC | 455-505 | 1550-1750lb.-ft. |
| DETROIT™ DD16* | 475-600 | 1850-2050lb.-ft. |
| DETROIT™ SERIES 60* TIER III | 425-500 | 1475-1550lb.-ft. |
| CUMMINS ISL | 260-380 | 720-1250lb.-ft. |
| CUMMINS ISX15 | 400-600 | 1450-2050lb.-ft. |

DETROIT SERIES 60 TIER III

MEET THE NEW OPERATION STATION.

Yes, the cab of the Western Star is comfortable. But it's also built to make the job easier. Quiet. Easy to get in and out of. Greater visibility. More leg room. Easy-to-read gauges. More storage. More space between seats for controls. And a completely new interior. You might feel spoiled. Almost.

READY, WILLING AND MORE THAN ABLE.

Western Star® trucks are built to perform, with the high-quality components that stand up to the challenge of hard work. Sure, you can buy a less expensive truck. But that only costs you in the long run.

All hail the steel cab.

No aluminum or rivets here. Our galvanized steel cabs are built to keep you safe. Extra gussets and reinforcements, bonded instead of riveted, precision welded for strength, then dipped and protected with a 17-stage e-coat process for long-lasting corrosion resistance and a superior paint finish. And for extreme-duty applications, Western Star also offers a severe service cab option with additional reinforcements to withstand anything you can throw at it.

Complete your support team.

Water trucks, stemming trucks, service and lube, dumps. With Western Star's full line of trucks, multiple options and full customization, you can equip your mine or quarry with Stars for every application.

Even our cooling packages are tough.

With high vehicle clearance, copper brass radiators, bolted steel tanks and rubber-isolated frame mounts, our cooling packages give you what you need – maximum cooling and durability with the ability to repair in the field.

STAY IN THE HOLE.

You work your trucks hard, so sometimes they need a little attention. Stars are designed for incredible durability and serviceability, with features like Grade 8 frame fasteners, copper brass radiators, as well as in-cab fuse panels and in-dash power distribution modules so you can make quick repairs in the field and keep on working.

FOUR TIMES THE RAILS. FOUR TIMES THE STRENGTH.

Western Star's quadruple frame rail option gives the 6900XD a rating of 200 tons GCW, providing the strength to handle whatever you throw at it.

MOVE A MOUNTAIN OR TWO.

With our heavy-duty suspension and planetary axle options, you have the strength to carry massive loads with the gear sets that can actually move them.
